

Exploring the Impact of Public Involvement

Public Involvement

Context and Scene

Impact Assessment National Perspective

What is the purpose of Research Impact Assessment?

- Accountability
- Advocacy
- Analysis
- Allocation
- Adjustment

Ensuring Value in Research

Reduce Waste

Increase Impact

Complex!!

i.e. highly dependent on context

Overcoming Barriers to evaluate impact

Can be:

- inconsistent
- difficult to extract key information
- limited knowledge of how to do it well
- poor quality / transparency

RAPPORT Study

Methods to evaluate PPI

Used Normalisation Process Theory (NPT) (May and Finch 2009)

Embed / Normal Practice Baked in

GRIPP2 - Long form where PPI is main focus

GRIPP2 - Short form where PPI is secondary

5 areas to explore:

- Aims
- Methods
- Results
- Outcomes
- Critical Perspectives

And now developing a Patient Version

PPI impact

Developing a PPI Framework

Public and Patient Involvement

A CRN project

Useful and Double Simple

* WessexPIN

Quality

Context

Perspectives

Multifaceted

1. Coherence Sense-making

2. Participation Ok!

3. Actioning

4. Reflexive Monitoring & Appraisal

convincing converting

The Aha! moment

Purpose Why we Involve and Engage

What makes a difference?

Questions and Answers Panel

Accessible all along the way

From the beginning

evaluation

Don't leave evaluation to the end!

Ensuring the experience of being involved is good

Valued Respected Equal

How do we bring on board those not currently on board

3 Questions at each research phase

- How extensively were PPIE methods used?
- Diversity of people involved
- How much difference did the involvement make?

For each question scale 1-20

Max = 120

Quantitative

focused world

PPI is for more qualitative

People, their experience, views etc.

Who and What is impact for?

Society as a whole

Public and Patients

Outcomes Making a difference

Process is important

Learning from good and bad

What is meaningful impact for you?

Something has changed

Research is everybody's business and responsibility

Power Relationships

Equal

notice the small things as well as the big

Table discussions

How do you measure or demonstrate impact?

The Baked in approach

START

from the start

all the way through

Invest and Resource well!!!

Capture and Communicate

big it up the role of the PPI

Marvellous Mistakes

Valuable

Learning from all experiences

But look at the little things too

This is such a difficult question!

What would you like your organisation to do about PPI impact?

Invest and Resource well!!!

Capture and Communicate

big it up the role of the PPI

Marvellous Mistakes

Valuable

Learning from all experiences

What are YOU going to do to Show PPI impact (in your organisation)?

Ongoing Assessment of PPI

Feedback forms

Have conversations with researchers enabling their development

Case Studies

Reflections

Lots of different ways of doing things

Questions

doubts

don't be afraid

still bewildered a bit

it's a journey

of understanding

communicate and converse
