

CLINICAL TRIALS COURSE

SUCCESSFULLY CONDUCTING & DELIVERING YOUR HIGH QUALITY CLINICAL TRIAL

*A ONE DAY COURSE FOR NEW **CHIEF INVESTIGATORS** ON THE SUCCESSFUL
CONDUCT AND DELIVERY OF HIGH QUALITY CLINICAL TRIALS*

WED 12TH OCTOBER 2016, 9AM-4.30PM
BOTNAR RESEARCH CENTRE, OXFORD

Aim: To provide new Chief Investigators with a greater understanding of the role of a CI including the practicalities of the conduct and delivery of clinical trials including drug, device and surgical trials.

Course objectives:

- To understand the importance of leadership and building an effective trial team
- To understand the principles of effectively running a trial
- To gain 'secrets of the trade' from experienced Chief Investigators
- To explore statistical aspects of trial conduct, data monitoring and interim analysis
- To understand current regulatory requirements for clinical trials
- To give an overview of reporting and increasing the usability of trials

This course is specifically targeted at new Chief Investigators whose trial has been funded or who are in the later stages of their funding application.

This course is free to OCTRU Chief Investigators; or £75 for non OCTRU Chief Investigators.
CPD points have been applied for.

PLEASE NOTE PLACES ARE LIMITED. Please email occtrualshub@ndorms.ox.ac.uk to receive further details.
